**“AMERICA ONLY HAS ONE BORDER”**

Instead of writing “THE BORDERS SECURE” in plural, the *Chyron* or character generator used to edit Candidate Trump’s TV spot inserted “THE BORDER SECURE” over the *vigilante*. Referring to the border in *singular form* instead of *plural* while discussing immigration is *100% white supremacist code* to describe *Mexicans*. The *border as a national crisis* has been the mantra of Tom Tancredo since childhood due to his obsession for revenge against *Mexicans*. And even though America has borders with Canada and the Atlantic and Pacific oceans, this is a highly bothersome geographical fact to the KKK and the *Minutemen*. *The real issue for Trump’s Army is the border with Mexicans* and anything having to do with Hispanics, Latinos or *Mesoamericans*. For decades, the essence of the supremacist worldview has been that *Mexicans* are the source of America’s problems and that the border with Mexico needs to be shut down.
