

**AIDING & ABETTING OF DOMESTIC TERRORISM  
EXHIBIT 42 - FRAME 42 (SMPTE TIME CODE 00;00;21;24)**

**“THAT’S A FAKE SOLDIER”**

In spite of his extensive military training and military upbringing at the New York Military Academy, Candidate Trump approved the use of a *fake soldier* to emulate a member of the US Armed Forces in his Presidential campaign TV spot about immigration. Some legal experts would argue that this is an illegal act by impersonating a member of the US Armed Forces. The fact that the Trump Candidacy and now the Trump Presidency have activated and mobilized fringe *militia* groups actively engaged in covert heinous crimes against immigrants along the US-Mexico border constitutes evidence of the aiding and abetting of domestic terrorism.
