“TRUMP’S ARMY”

President Trump has enabled the formation of a dangerous *militia* movement in America by failing to unequivocally condemn the actions of the *militias and nationalists* that were present in the *Unite the Right* race riots in Charlottesville on August 11 and 12 of 2017. The event, organized by Richard Spencer, Stephen Miller’s close friend and soulmate, had a heavy presence of armed *militias* making a show of force and reopening old wounds in US race relations. These *militias* are clearly pro-Trump and have gone as far as threatening armed action if President Trump is not reelected in 2020 or if he is impeached by the Democrats. The inclusion of an armed vigilante in Trump’s campaign TV spot amounts to aiding and abetting of domestic terrorism because of the lethal actions of the *militias* patrolling the US-Mexico border.

The screenshot shows a news article titled "Trump's army: More than 300 asylum seekers surrender to armed militia of 'New Mexico residents, veterans and ex-cops', after crossing the US border" dated FEB 11, 2019. The article includes a sub-headline "The Well-Regulated Militia in Trump's Dangerous Hands" and a video player with the title "Analysis // Preparing for 'An All-out War': Why Anti-government Militias Are Taking Up Arms for Trump". A circular logo for "TANCREDO FOR PRESIDENT" is visible. Below the article is a social media post from ABC123, a Silver Member, dated Thursday at 10:04 AM, which repeats the article's headline and provides additional context: "Hundreds of asylum seekers surrendered to an armed militia of New Mexico citizens last night, after trying to cross the U.S. border. A group of 300 men, women and children gave themselves up to the 'United Constitutional Patriots', a gang of vigilantes who claim to be made up of veterans and former police officers, who then handed them over to border officials. Video recorded by one of the militia, Jim Benvie, who has been camping out on the New Mexico-Chihuahua border seekers walking on a dirt road having crossed through a fence gap in Sundland Park, New Mexico."
