

**CLEAR, COMPELLING AND CONVINCING PARALLELS:  
NAZI GERMANY AND THE DONALD TRUMP PHENOMENON - EXHIBIT 1  
HITLER'S "MEIN KAMPF" AND TRUMP'S "CRIPPLED AMERICA" BOOK COVERS**

Research confirms that the nationalists surrounding Candidate and now President Trump (Stephen Bannon, Tom Tancredo, Stephen Miller, Kellyanne Conway, etc.) study Nazi history and propaganda styles. Their translating and contextualizing of Nazi symbolism into America's political experience has been detected and denounced by Holocaust experts worldwide. The cover design on Hitler's English version of *Mein Kampf* and Trump's *Crippled America* are identical. Hitler's book is a collector's item among American neo-Nazis and ultra-nationalists. The photographic style, the camera angle, the wardrobe choices, the angle of each shoulder, the positioning of the title text, the facial expressions, the slight leaning forward and the angle of the eyes of both *Führers* are identical. This "dog whistle" salute to the ideology that is guiding the Trump Administration is what validated supremacist fringe groups in the 2016 elections and brought them into the political process. These design parallels are impossible to dismiss as coincidence especially after Trump's retweet of Benito Mussolini's quote *verbatim* and a photo of the White House blended with the American flag and a team of German SS soldiers.
